PROJECT EXPERIENCES

Invigilation Management

Duration :- 2 Months

The web aims to minimize manual work, by introducing automation in allocating classrooms to staff. It provides a dashboard for the admin to manage all the components such as active staff and classroom. Made with ReactJS and ExpressJs along with MySQL as a database.

Contact Management

Duration :- 1 Months

Created using frameworks such as ExpressJS and ReactJs. It is a platform to store and manage your contacts. Google identity services have been used to authenticate users. Cookies and JWT tokens have been used to improve the security of the application. MongoDB Atlas cloud database have been used to store the user data.
